PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience in building responsive web applications using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript. Strong understanding of REST APIs, database management, frontend development, and backend integration. Passionate about clean coding practices, problem-solving, and developing scalable applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React JS, Bootstrap

Backend: Java, Spring Boot, REST API, JDBC, Hibernate

Database: MySQL

Tools: Git, GitHub, Postman, VS Code, Eclipse

Concepts: OOPs, Collections Framework, CRUD Operations, MVC Architecture

PROJECTS

E-Commerce Web Application

Tech Stack: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed user authentication and product management modules.
- Implemented cart and order processing functionality.
- Created REST APIs for frontend-backend communication.
- Designed responsive UI for smooth user experience.

Online Food Delivery Management System

Tech Stack: Java, Spring Boot, MySQL

- Built restaurant, food item, and order management modules.
- Implemented delivery status tracking and admin functionalities.
- Designed relational database schema and optimized SQL queries.
- Integrated backend APIs for efficient data handling.

ACHIEVEMENTS

- Solved 150+ Java programming problems.
- Built multiple full-stack web application projects.
- Strong understanding of REST APIs and database integration.

EDUCATION

Bachelor of Engineering

Annapoorna Engineering College

2021-25
